

# Leading the way in Road Profiling Solutions

We utilise the latest road profiling technologies for your civil, roadworks and asphalt projects.

## About Us

Fitzroy Road Profiling delivers cost effective and safe road milling solutions, in both one and two metre cuts. Based in Rockhampton, we are the trusted road profiling partner for the local government, private and public sectors. Our state of the art fleet consists of Wirtgen machines that deliver exceptional output, accuracy and efficiency for your project. Founded by Lachlan Adams, who has over two decades of experience in the civil and asphalt industries, we have a highly specialised team of fully licensed, competent and experienced operators.

- Short, medium or long term projects.
- Our own transport for one and two metre machines.
- Fully insured & public liability insurance.

## Our Services

- Asphalt Profiling
- Plant Equipment Hire
- Road Contractors
- Truck supply for the efficient removal of asphalt.

## Service Area

- Inner Zone
- Outer Zone

# Our Machinery

Our fleet of road profilers include the Wirtgen W210 and W100F, which deliver maximum efficiency and precise cuts, without disturbing the sub-grade or base. This equipment utilises the latest technologies in automated levelling systems and is suitable for milling asphalt surfaces and base course.

Combining several processes into one, these machines are unrivalled in speed at they excavate asphalt base, crush materials and fill partnering trucks at the same time.

W210 Large Road Profiler

## W210 Large Road Profiler

Wirtgen W210 is a high performance machine with twin engines that delivers a demand based output and more efficient fuel consumption.

- Cutting width of 2 metres.
- Cutting depth of 330 mm.

W100F Compact Road Profiler

## W100F Compact Road Profiler

Wirtgen W100F is a compact, high performance machine that is ideal for small or hard to access worksites and easy to transport.

- Cutting width of 1000 metres.
- Cutting depth of 330mm.
